EVIL OF YALE.

Segregation of Rich Students Works Harm.

NEW HAVEN, Conn., July 15.—Dean Wright of the Yale academic department, in a report to President Hadley, says that one of the worst evils in Yale is the segregation of rich students in expensive dormitories. He said:

"Perhaps the most serious evil connected with this segregation of the well-to-do students is that it is bringing together, especially in the sophomore year, those who aim to form the society sets, whose chief purpose in college is popularity and social recognition and to whom for this reason, the claims of scholarship become secondary."

So many of the men who have been members of the junior and senior societies have roomed in these sections that there is more or less prevalent feeling that to room there helps one's chances for social advancement, and this is undoubtedly true.

"If the social honors of college are to have any value, all men should have an equal chance to gain them. The Yale spirit of fairness is offended when honors are bestowed upon an inferior man who, because of wealth or superior location or the influence of friends, has had an unfair advantage over his fellows."

An illustration of the faith of Salt Lake business men in the future of this city is the marked step in progress taken by one of the larger concerns engaged in the wholesale and retail lumber trade in Salt Lake. Morrison, Merrill & Co., whose business was established as a small retail lumber yard on Third West street some fifteen years ago, have increased their yard room and warehouse numerous times, and are now greatly adding to their equipment by erecting some of the largest buildings used in the lumber trade west of the Missouri river. One warehouse, just completed, two blocks north of the O. S. L. depot, is 75x165 feet; another, 20x160, and a third altered and added to will cover 45x60 feet. The new stables erected in the same block will provide for over 100 horses.

The new storage yards contain on the company's land over 1000 feet of double track. On the occasion of a reporter's recent visit practically all of this track was occupied with cars, unloading and loading for outside points.

Though Morrison, Merrill & Co. are handling a very large volume of retail trade, the wholesale department is more extensive in its operations. They cover an immense territory reaching from eastern Oregon and Dillon, Mont., to Grand Junction and Fock Springs, Wyo. In addition to catering to the wants of the trade, a specialty is made of company business, and some of the largest recent contracts, including the large timber contract for the erection of the Newhouse mill at Frisco, have been handled by this firm.

Evidence of the aggressiveness of this concern is found in the establishment of uptown offices at No. 25 Main street in the Security and Trust building. At this location a wholesale and retail glass and paint department has been opened, and all the business will be handled at this location.

Expansion of this character betokens an abiding faith in the future of this city, and should contribute to encourage the development of this city.

TRAFFIC AT PORTLAND.

Three Million Persons Pass Through Oregon Metropolis.

PORTLAND, Or., July 15.—The immense passenger and freight traffic brought into Portland by rail is demonstrated by figures just compiled by the officials of the Northern Pacific Terminal company of this city. During the year ending June 30 there were in round numbers 57,000 passenger coaches, not including 10,000 Pullman sleepers. Averaging 45 persons to each coach and 15 to each Pullman, a total of about 3,000,000 persons were handled through the Portland depot. The total number of freight cars received, not including baggage and express cars, was 159,736. Estimated at 45,000 pounds to each car, amounts to a total of about 349,000 tons.

TRAIN AGENTS INSTALLED.

All Through Trains From Chicago to Be Accompanied by Agents.

CHICAGO, July 15.—It is announced that within the next week or two all through trains departing from Chicago will be accompanied by "train agents," who will be placed on the trains to detect and confiscate tickets fraudulently sold by "scalpers." The decision is placed agents for this purpose on trains is stated to be the result of successful experiment by the Southern Pacific road on trains departing from San Francisco, Los Angeles and Portland, Or.

ROAD TO LEWISTON.

O. R. & N. Will Build Line From Riperia.

PORTLAND, Or., July 15.—A contracting firm of San Francisco, was today awarded the contract for constructing the O. R. & N. Northern Pacific connection, between Riperia and Lewiston. The line will be started immediately, and according to the terms of the contract, is to be in shape for operation April 1, 1936. The estimated cost is between \$1,700,000 and \$2,000,000.

Bids for this work were opened July 6, but owing to the fact that the details of the O. R. & N. had to be completed, the bids were not opened until today.

Operations relative to the building of the Northern Pacific connection between Lewiston and Grantville are progressing rapidly, and that line is to be put under contract in a short time.

CONNECTING TWO ROADS.

Great Northern and Northern Pacific Will Be Joined.

HELENA, Mont., July 15.—H. L. Hewett, a mining man of Boston, who was turned from London, where he went to investigate in a scheme to build a railroad from Boston to the county seat of Flathead county, about 20 miles, returned today and announces the Montana Northern, which is the name of the company, has a capital of \$6,000,000, a large amount of which has been subscribed, and that the road will be built and in operation inside of one year. It will afford a connecting link between the Great Northern and the Northern Pacific, and Hewett says will be operated independently of those railroads.

Texas Bank Assigns.

KEMP, Tex., July 15.—The Kemp bank, by Dodge Mason, owner and proprietor, and Dodge Mason, individually, executed a general assignment today. The assets are estimated at \$175,000, with liabilities of \$100,000. It is believed creditors will be paid in full.

Baptist Minister Killed.

LONDON, July 15.—The Rev. Homer Anthony of Arkansas, a delegate to the Baptist congress, was struck by a truck today and died in the hospital to which he was taken.

Eagles' Day, Saltair, Monday, July 17.

CHINA'S CLAIMS WILL FIGURE

Keep Jap's War Spirit in Leash.

Russia Will Not Resent "Butting in" Act of Mikado.

Possibly Looks With Satisfaction Upon the Prospect—Wu Will Look on, Anyway.

ST. PETERSBURG, July 15, 12 a. m.—China's possible role in the Russo-Japanese peace negotiations is attracting more attention. The Foreign office intimates that China's notification that she would decline, unless assent was previously given to her to send a representative to the peace conference, to consider the Washington treaty binding if its provisions affecting Chinese territory were regarded as prejudicial, was sent to all the powers in the form of a circular note.

Rather Pleases Russia.

Russia, according to the Foreign office, sent no reply to Peking, but it may be significant that some papers which occasionally have official inspiration, like Prince Oukomsky's Vedomosti, look with complaisance if not satisfaction upon the prospect that China may try to have a voice in the terms of peace.

Will Restrict War Spirit.

Their argument is that any action on China's part will necessarily be in the direction of restricting Japan's war spirit, and that the other powers, especially the United States, in support of the principles of the Chinese territorial integrity, will be compelled to a greater or less extent to support the Chinese claims.

Will Send Wu Over.

The Shanghai correspondent of a Russian news agency reports that China has already selected Wu Ting Fang, former Minister to Washington, to go to the United States to watch the proceedings.

KILLS THE ENGINEMEN.

Explosion of Boiler Results in Their Fatal Scalding.

KINGMAN, Ariz., July 15.—This morning at 7:30 the boiler of one of the big decapod engines of the Santa Fe blew up seven miles south of this place. Instantly killing Engineer E. E. Copeland and Fireman C. B. Bryant, the bodies being terribly mangled and scalded.

The engine was pulling thirty cars of fruit and had just topped over the Hancock hill when the explosion occurred. It is thought that the sudden shutting off of steam in the cylinders forced an immense pressure on the boiler, causing the crown sheet to collapse.

The boiler was torn from its frame and hurled several hundred feet through the air. The frame work was not injured.

ASTONISHES VON BUELOW.

Emperor Displays Appreciation in Rooseveltian Style.

BERLIN, July 15.—When Chancellor von Buelow was received on board the German Imperial yacht Hohenzollern at Swinemunde on Sunday, following France's acceptance of the proposal for a Moroccan conference, Emperor William ordered the yacht to be dressed as for a review, and the imperial suite, all the yacht's officers and her crew were drawn up and saluted the Chancellor as he stepped from the gangway.

The Emperor called for three cheers for Von Buelow, who paused, astonished at his reception, and then warmly thanked his Majesty.

Worst of Flood Is Over.

LOS ANGELES, July 15.—Superintendent Platt, Assistant Superintendent McCaffrey and other Southern Pacific officials, who went to Salton for the purpose of investigating the high water there, have returned. All are convinced that the worst is over and in a short time normal conditions will have been restored in the neighborhood. The water is receding as rapidly as it rose.

Scheme to Defraud Dealers.

The weighmasters are charged with conspiring with certain traders to defraud cattle dealers by a system of under-

FALSE WEIGHTS AT STOCKYARDS

Kansas City Men Are Indicted.

Accused of Conspiring in System to Defraud Cattle Dealers.

Prominent Stockman Charged With Borrowing Large Amount on Herd Already Mortgaged.

KANSAS CITY, July 15.—The grand jury today returned indictments against William A. Towers, a prominent cattleman, on a charge of fraud, and Carl H. Rightmiller, Bruce Reichelderfer and Charles Wiggins, weighmasters at the Kansas City stockyards.

Borrowed Twice on Cattle.

Mr. Towers, it is alleged in the indictment, borrowed \$30,000 from a Kansas City brokerage firm on a herd of cattle in Bent county, Colorado, which, it is charged, he had already mortgaged. It is also charged that the herd did not contain 200 cattle, the number represented when the loan was negotiated.

Scheme to Defraud Dealers.

The weighmasters are charged with conspiring with certain traders to defraud cattle dealers by a system of under-

Weights and overweights, by which they secured considerable money. Among the traders who so conspired with the weighmasters, it is alleged in the indictment, were Cyrus Van, J. J. Miller, Henry Nichols, J. J. Judy and George M. Wright, partners under the firm name of Van & Wright.

Accused Are Prominent.

William A. Towers is one of the best known cattlemen in the Southwest. He was the partner of George M. Casey, owner of the greatest herd of Hereford cattle in this country, and who died a year ago following his failure for several hundred thousand dollars. Thomas M. Casey, the manager of the failed Salmon & Salmon bank at Clinton, Mo., who was recently charged with forcing the bank's paper, is a son of George M. Casey, and it was in an attempt to save his father's fortune that he involved the Clinton bank.
